Antioch to Celebrate "The Fourth"

Contests, Games, Dancing and Fireworks Are on Program

The Fourth will be lots of fun in Antioch, what with a full program of afternoon and evening events being sponsored by business people and organizations of the village.

At 3 p. m. a full program of contests for children of all ages, with prizes for the winners, will be held. Water fights for men and women will be held at 6:30.

Fireworks at 9:30
At 8 o'clock the Antioch fire department will stage a demonstration. A gigantic display of fireworks at 9:30 in the evening will climax the day's program.

Free dancing, with music supplied by a public address system, will be enjoyed on a dance floor set up in the village park.

Thousands of visitors to Antioch and the lakes region are expected for the Fourth and the week-end, and the program is designed to extend to them the hospitality of this popular "summer playground" area.

Famous Colored Softball Team to Play Here Monday

Milwaukee Team to Engage Ford V-8's Under Local Lights

The Ghosts, Milwaukee's famous soft ball team composed of colored stars, will meet the Ford V-8's on the local field Monday night. The game will start at 9 o'clock.

The Ghosts are reputed to be the fastest soft ball team in the state of Wisconsin, and a treat is in prospect when they meet the V-8's, who also have an enviable record of their own.

After the fifth inning the visitors will give their version of shadow ball in a fast moving exhibition.

"Cannon Ball" Simms, the Ghosts' ace pitcher will start the game for the visitors. The lineup includes such stars as Lightning Dowell of Milwaukee, Wild Duck Young of Cleveland, Jimmy Jordan of Kansas City, Boots Kirk of Detroit, and other soft ball luminaries.

The admission charge will be 25c and 10c.

Defeat Fox Lake
In a hotly contested game here Monday the V-8's defeated the Fox Lake Lions club, 5 to 4. The lead changed hands several times, making the game an exciting one, although due to cold weather neither team displayed their usual good form.

TENTH WAS "BANDWAGON" DISTRICT AT CONVENTION

With the last contingent of delegates back home from Philadelphia, the Tenth Congressional District discovers that when the Wendell Willkie bandwagon began rolling, the Tenth was already in a front seat.

Both delegates to the convention, James S. Kemper of Winnetka and Albert D. Lasker of Lake Forest, voted for Willkie almost from the first ballot, and New Trier township's Republican committeeman Henry A. Gardner was an active Willkie supporter and worker long before the dark horse's lightning campaign hit Philadelphia.

Speaking of the Republican ticket as "well-balanced and powerful," George A. Paddock of Evanston, the township's Republican committeeman and party candidate for Congress from the 10th District this fall, remarked on the lack of traditional deals and steam-rolling in the convention vote.

"You could tell the convention was 'unbossed' by the way the large delegations split and shifted," the Evanston leader said. "Those men on the floor were under plenty of pressure, but they were making their own choices. They picked well. If we can only get out our full Republican vote, we'll carry Illinois in November."

Post Office Hours
The Antioch post office will be open the morning of Thursday, July Fourth, from 6 to 9:30 a. m. for the convenience of patrons. Postmaster James Horan announces. There will be no rural delivery except for "special delivery" mail.

Chicagoan Dies Suddenly at Loon Lake Cottage

A sudden heart attack proved fatal to William Weber, 42, of Chicago, Saturday afternoon at his cottage at Loon lake.

Weber had apparently been in excellent health up to the time of the attack. His wife ran to the nearest telephone, more than a mile away, to summon Dr. A. N. Berke of Antioch, but the physician pronounced him dead on his arrival within 15 minutes later. Dr. Berke put in a call for the Antioch rescue squad's oxygen apparatus, however, and squad members spent more than two hours in the attempt to revive Weber.

Survivors include Mrs. Weber and two small sons. The body was taken to Chicago for burial.

Boys' 4-H Club Activities Varied

Three Antioch Farm lads are attending a three-day camp at Camp Rotary at Blackhawk State Park, six miles south of Rockford, Illinois, this week.

Otto Gussarson is acting as group leader for the Lake county members. Others from the Antioch 4-H club are Earl Brixen and Robert Smith.

The Three-day camp is for 4-H club members of the Northern Illinois division and is in the charge of the state 4-H leaders, from the University of Illinois.

According to the C. L. Kutil, local club leader, the boys will participate in swimming, nature study, forestry, and many social activities.

The Antioch boys were selected by the executive committee and their expenses will be paid by the local boys' club and the Lake County Farm Bureau.

Local Boys Make Tour

Monday evening the local 4-H club members under the leadership of Mr. Kutil and Robert White, made a tour and visited the projects of Lloyd and Wayne Drom, Niels Nielson, John Fixari, and Norman Edwards. They finished with an inspection of the Agricultural Experimental field conducted by the University of Illinois on the farm of George White.

After the tour a luncheon was enjoyed on the lawn at the White farm.

In Charge of Antioch's "Fourth" Celebration

The youngsters as well as grownups will have their share in Fourth of July fun at Antioch. John Horan, O. E. Hachmeister, Herman Holbek and Walter I. Scott display some of the prizes to be awarded to children in games and contests at the village park during the afternoon. Water fights by fire department teams, contests for grownups, free dancing, during the afternoon and evening, and fireworks at night will be other features.

Jalopies Enter for Second Race July 7 at Garland Track

The Wauconda Young Men's club will sponsor the Second Wauconda Sweepstakes on July 7 with cash awards in two classes. Class A includes stock cars of models not later than 1930. Class B consists of Model T Fords exclusively. There will be four races for Class A cars and three for the Model T class to serve as elimination heats. The winning and second place speedsters in each of the seven races qualify for the Lake Region Derby, the grand event on the eighth race card.

Social Security Man Will Be Here July 10

For the convenience of employees and employees in this vicinity who desire assistance and information relative to the Old-Age and Survivors Insurance provisions of the Social Security Act as amended, Albert S. Lewis, manager of the Waukegan field office of the Board will be in Antioch, Wednesday, July 10, with headquarters at the Post Office, between the hours of 2 p. m. and 5 p. m.

Heart Attack Is Fatal to Retired Draftsman

A coroner's inquiry held at the Strang Funeral home Monday night set a heart attack as the cause of the death of Anthony O. Charzat, 66, of Chicago, who collapsed late in the afternoon while painting a house at Loon lake and was rushed by Antioch for medical aid. He was attended by Dr. A. P. Bratrude. The Antioch rescue squad was summoned, and although Charzat was pronounced already dead on their arrival, the squad men administered oxygen and gave aid in attempts to revive him.

Funeral services were held in Chicago today, with burial in the Bohemian National cemetery.

His wife, Anna, and a son, Anthony, Jr., survive. Charzat was a retired draftsman.

Phone Company Opens Business Office in Antioch

Local Office Will Also Serve Lake Villa and Fox Lake

The Illinois Bell Telephone company opened a business office in Antioch Monday in the company's building at 966 Victoria street, for the convenience of patrons in Antioch, Lake Villa and Fox Lake communities.

Heretofore the business of the company for the local communities has been transacted through the Libertyville office, but the growth of business in the lakes area prompted company officials to provide the local office, which will take care of applications, receive payment of bills and other matters pertaining to telephone service. Mrs. Earl Steffenburg (Virginia Tidmarsh) has been placed in charge here.

There was a nine percent increase in the number of telephones in the area in 1939 over the previous year, according to D. A. Miller, district commercial manager, of Evanston. "There has been approximately 15 per cent increase in business during the first six months of 1940," Mr. Miller said. "The company feels that patrons in the lake area need and will appreciate a more localized service," he stated.

The general manager for the lakes area is A. R. Andrews of Libertyville.

Camping Days Are Ahead for County 4-H Club Girls

Lake county 4-H club girls are going to have another chance to go camping as a part of their club activities this summer as plans go forward for a four-day camp at Camp Rotary near Rockford, July 4-7, according to Mrs. Helen Volk, Home Adviser. The camp is being sponsored by 11 northern Illinois counties, including Lake.

"Value of this short outing cannot be measured for it is one of the big events in the 4-H club year for many of the girls," said Mrs. Volk. Those who attended last year are looking forward to renewing friendships with girls who attended from other counties. "Being My Best," handicraft, first aid, nature study, photography, group singing, games, and swimming in the gorgeous pool are some of the activities the girls will enjoy.

Camping is one of the many activities which the extension service of the University of Illinois College of Agriculture sponsors as part of its program to make rural life more attractive and give thousands of 4-H club members in the state training in better farmer and homemaker practices.

The girls attending from Lake county are: Irene Pedersen, Lake Forest; Anna Mae Heinsohn, Libertyville; Shirley Mills, Libertyville; Nancy Mills, Libertyville; June Rouse, Mundelein; Jean Mills, Libertyville; Lois Allanson, Mundelein; all of the Hawthorne Clever Workers club; Marion Gillespie, Mundelein; Marilyn Will, Grayslake; Ruth Pfingsten, Mundelein; Ruby Kane, Mundelein; all of the Busy Fingers club; Marcia Holtje, Prairie View; Marie Stancil, Libertyville; both of the Townline club; Dolores Duba, Libertyville; Dorothy Duba, Libertyville; both of Little Women of Libertyville; Dorothy Aronson, Doris Strang, Lila Dalgard, Theodora Hennings, Doris Burdick, all of Antioch and the Antioch Aces club; and Mrs. Helen Volk, Home Adviser.

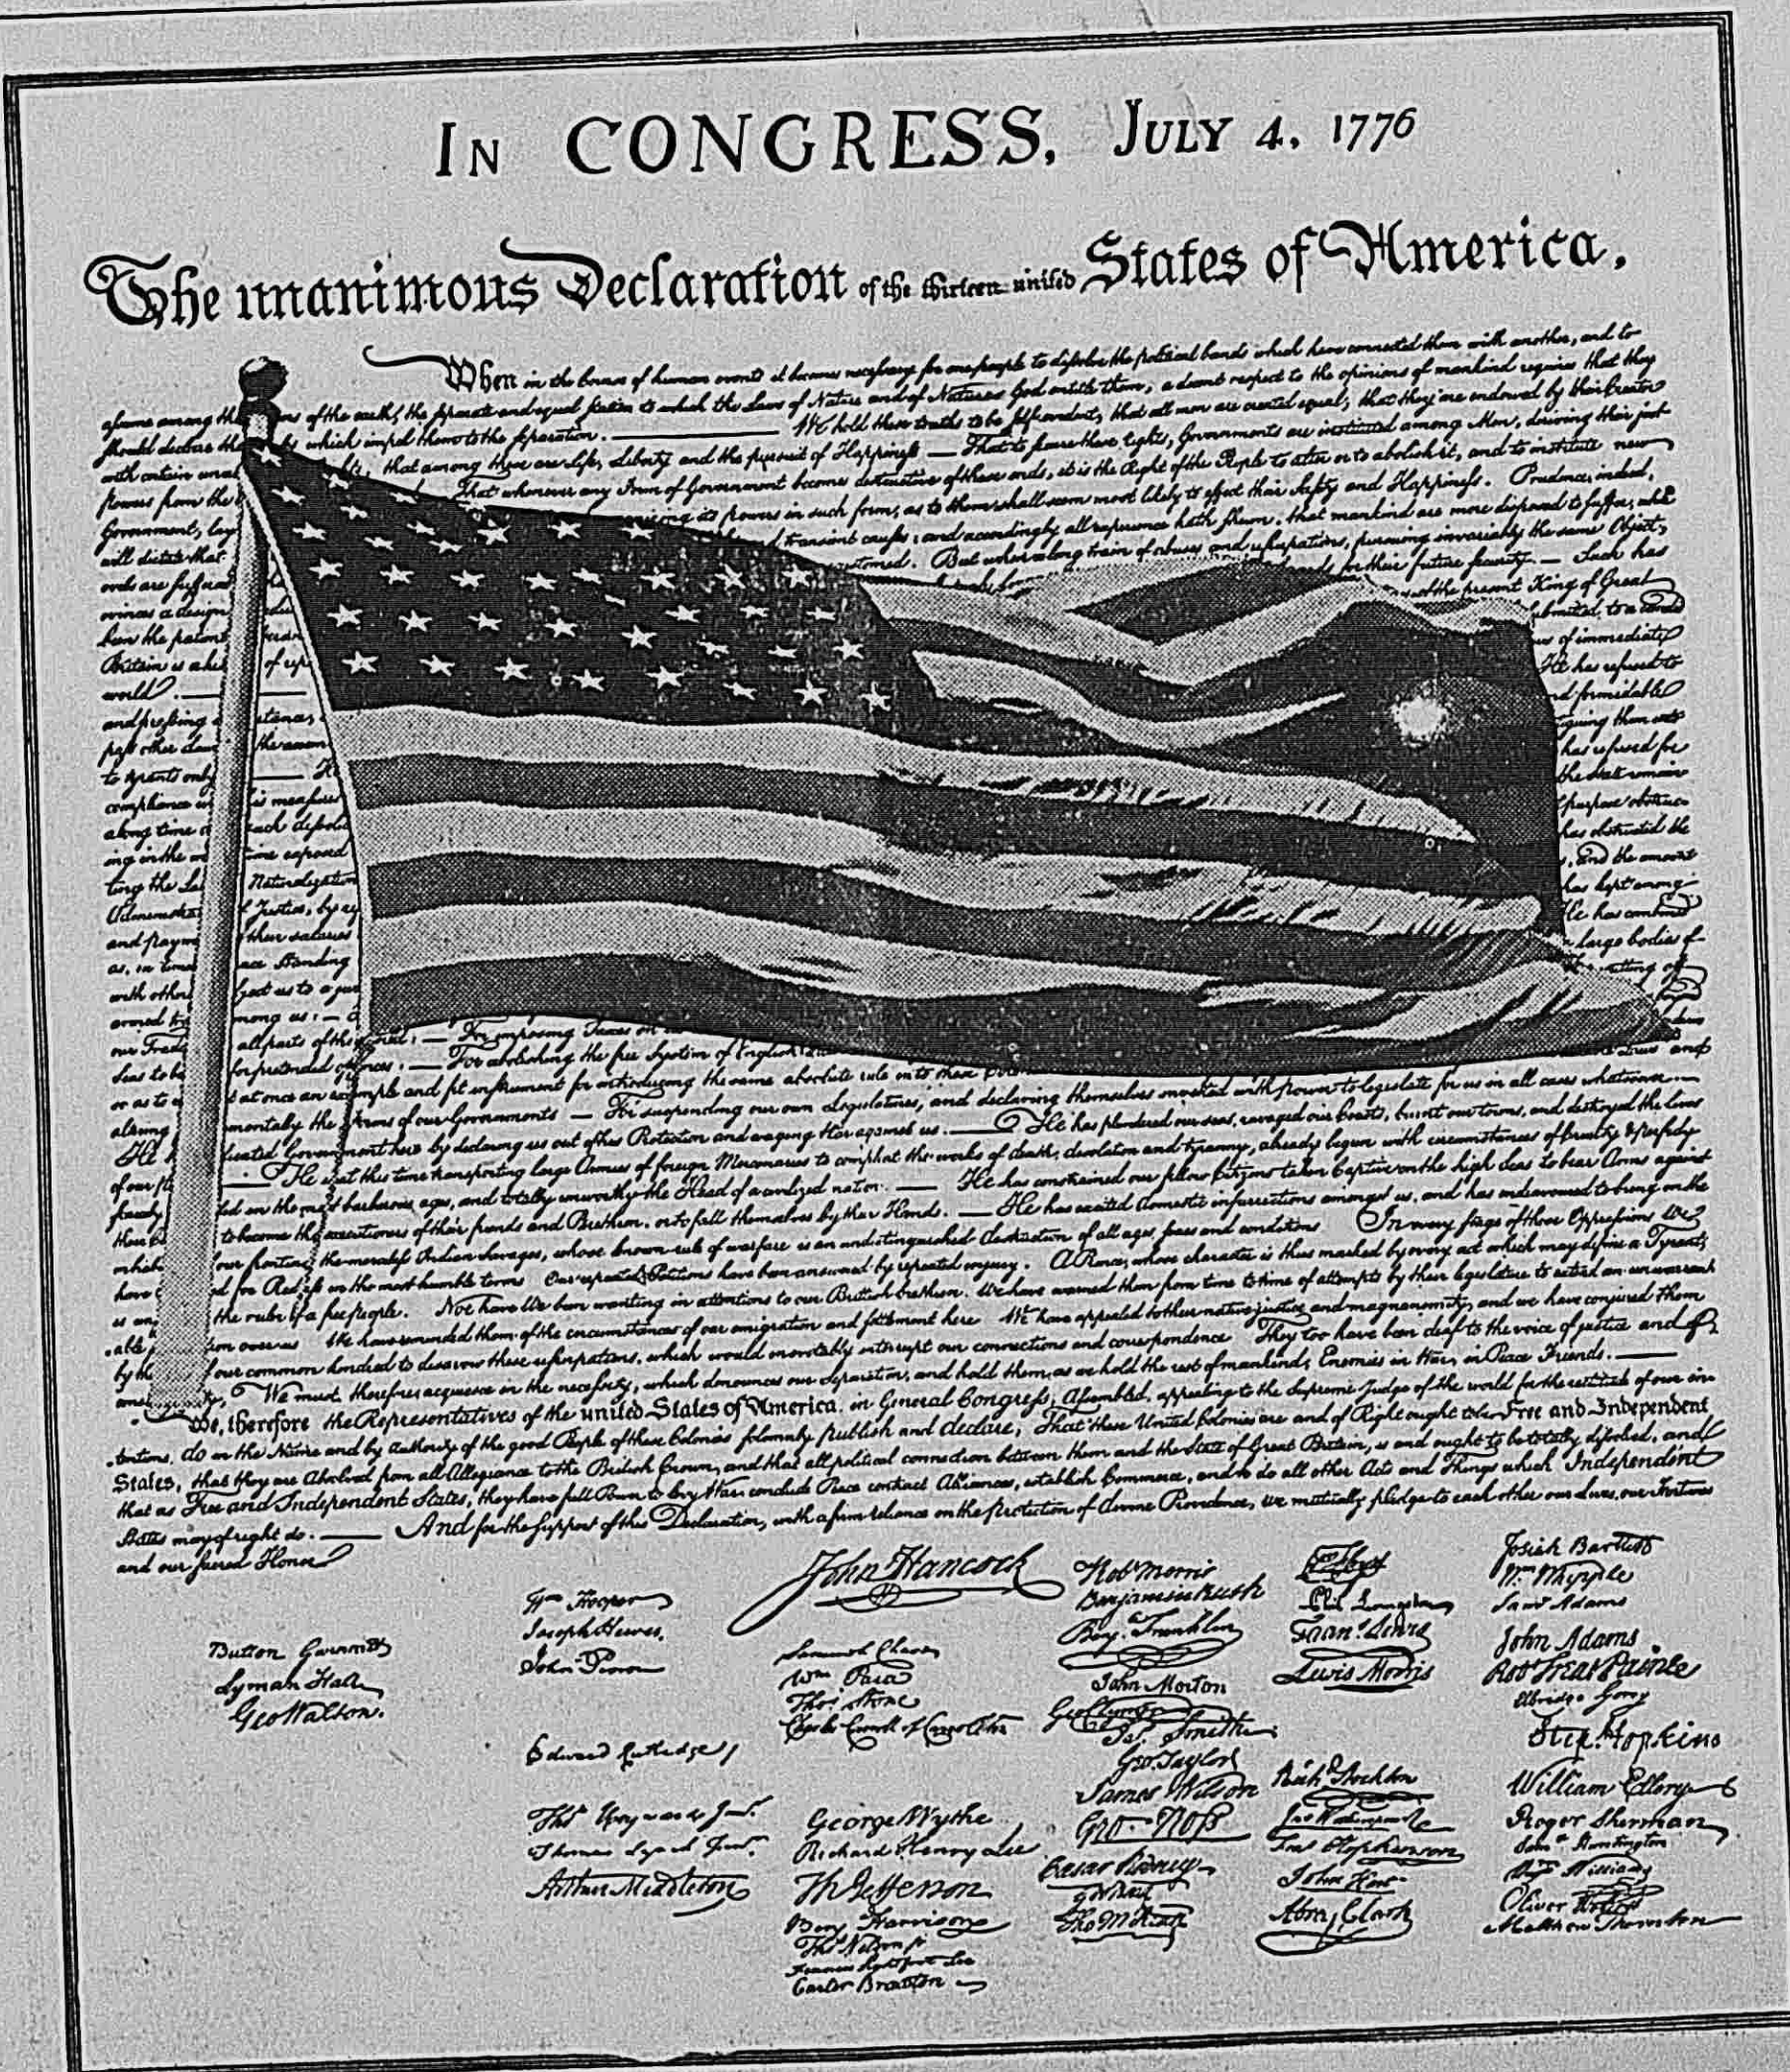

Body of Long Lake Man Is Recovered

The body of Albert W. Larson, 57, missing since Thursday morning, was recovered from Long Lake off Pickercil Point early Tuesday morning. Larson, who had a summer home at the lake and a Chicago residence at 5119 Mango avenue, Chicago, was reported by a coroner's jury to have taken his life by drowning. The inquest was conducted at Smith's chapel in Fox Lake by Deputy Coroner M. E. Penney.

Sheriff's deputies and volunteers had been searching for the body since Thursday evening, when Mrs. Larson became alarmed after her husband had failed to return.

Hopes that he might have gone to Chicago to visit friends were dashed when the boat in which he had set out was found adrift Friday, minus the anchor.

Survivors include a son, Ray, of Chicago.

We Don't Want Political Money Jugglers

In a recent editorial, the Herald of Clinton, Iowa, gave banking a much-deserved word of praise. On the whole, says the Herald, bankers "are good, substantial citizens, anxious to encourage community growth and prosperity, and fully conscious of the fact that they will succeed or fail with their community." The editorial concluded: "Banking is a difficult business. It is one business that literally lives in a glass house. Most of us will never love our banker—loans must be paid to protect a bank's depositors, who are also borrowers. But the banker has earned our respect. Heaven forbid that he ever be replaced by publicly owned banking and political money jugglers."

Under the American system, the money power is in the hands of the people. The banker is simply the servant of his depositors. He is regulated by Federal and state laws. He is directly responsible to the people, and severe penalties await him if he fails his trust. So long as that situation obtains, the money power will remain in the hands of the many—not in the hands of the few.

Political banking would be a dangerous step toward dictatorship. Political machines would wax fat—men in office, with the money power concentrated in their hands, could perpetuate themselves indefinitely. Corruption would flourish—democracy would die. The people can easily control the abuses of private industry or private individuals—but it is very difficult and sometimes impossible for them to control abuses of government.

The people's money must be kept in the possession of the people. That is vital to the maintenance of a free country.

Our Way of Life

Writing in Fortune a short time ago, Wendell Willkie said: "This effort to separate 'business' from the ordinary

life of the people and to set it in a distinct and inferior category represents a profoundly false conception of our economic system. There are about 10,000,000 private enterprises in the United States, which employ about 34,000,000 people, who in turn support many millions of other people. Business is a part of life and a way of life. By it we earn our bread, build our homes, care for our children, find expression for our selves. Every one of us lives directly or indirectly by business. . . . It is business, in the broadest sense of the word—including industry and technology, and including the modern farm, which is a business, that has made the American people so great."

For a long time, we, the people, who live by business, have sat supinely by while the public servants who manage our governmental affairs denounced business, reviled business, fought business, and attempted to destroy private business at every opportunity. The result was the greatest and longest business depression in our history.

And now, almost overnight, we find it imperative that we embark on an unprecedented program of defense rearmament. Do we turn to politicians in this emergency? No! We turn to business, to industry, to the great factories of America. The principal members of the preparedness board lately appointed by the President are business men. And that is as it should be. Even as industry must provide us with the tools of peace, so must it provide us with the weapons of defense.

It has taken the direst of crises to reawaken us to the role that private industry plays in our lives. Let us not forget it again.

In Washington the New Dealers are in favor of a third term. Up in the Bronx the Roosevelt boosters want him to run for a third term.

The map of Europe is changing so rapidly that the only satisfactory way to teach geography now is with motion pictures.

It is said that the WPA rat killing campaign in New Orleans cost \$2.97 a rat. It would have been cheaper to buy them off.

Speaking of this "pot of gold" program we hear about on the radio, we presume they get the stuff fresh from the hills of Old Kentucky.

TRUE LIBERTY

(Compiled by A. Channel)
"The spirit of liberty," says Channing, "is not, as multitudes imagine, a jealousy of our own particular rights, but a respect for the rights of others, and an unwillingness that any one, whether high or low, should be wronged or trampled underfoot."
"Man's liberty ends, and it ought to end, when that liberty becomes the curse of his neighbors." Farrar.
"There is no liberty to men whose passions are stronger than their religious feelings; there is no liberty to men in whom ignorance predominates over knowledge; there is no liberty to

men who know not how to govern themselves." H. W. Beecher.

True liberty then, consists in man's submission unto God's commandments. True liberty is to be found nowhere except in complete servitude unto God, the Eternal Truth. Whoso hath tasted of its sweetness will refuse to barter it for all the dominion of earth and heaven. The responsibility of America is great, very great, in the establishment of a divine civilization, so we should unitedly turn our hearts to God and say:

"O God! Let our democracy become glorious in spiritual attainment even as it has become successful in material degrees. We ask Thee, O God, to pour out Thy blessing upon this government which has stretched its tent over citizens from every land, that its inhabitants, its industries, its territories may be penetrator by justice. O God! strengthen its executives, give authority and influence to its word and utterance, protect its territories and dominions, guard its reputation, make its ideals to echo throughout the world, reveal its traces and exalt its principles by Thy conquering power and wonderful might throughout the kingdoms of creation. Thou art the confinner of whomsoever Thou wilt—the powerful and the mighty."

Plan Farewell Party For Father Morris

News reached Antioch last week that Archbishop Stritch has assigned the Reverend Walter Morris of St. Peter's to the parish of Our Lady of Grace at 2455 N. Hamlin Ave., Chicago, where he will assist Monsignor Victor Primeau in the activities of one of the largest parochial units of the archdiocese. Father Morris was ordained eight years ago by the late beloved Cardinal Mundelein after having made his course of studies at the Seminary of St. Mary of the Lake, and Quigley Preparatory Seminary.

His many friends here regret his departure but rejoice in his promotion to a larger field of labor where his many talents can be put to excellent use. In appreciation for his ministrations amongst them the parishioners of St. Peter's are arranging a farewell party for Father Morris on the night of July 12 in the Parish hall. All are welcome to attend this affair which will begin after the Novena services.

JOSEPH DOOPER FETED ON FOURTH BIRTHDAY

Mrs. William Agricola and Miss Dorothy Ypma entertained on Thursday for their nephew and cousin, Joseph Dooper. Guests included John Ypma, Joseph and Billy Dooper, Robert Haddican, Marcela Dorsey, Miss Mary Dorsey, Jennie DeBoer, Anna Ypma, Dorothy Bandle, Wilma Linstra, Barbara Hook, Mrs. Sophie Plotz, Mrs. Obie Linstra, Mrs. William Haddican, Mrs. Dick Dooper, Mrs. Hook, Mrs. William Dorsey and the hostess, Mrs. Edward Ypma.

Games were played during the afternoon.

A luncheon was served with a large birthday cake for a centerpiece and appointments in orange and white.

RICHARD WATERS AND BERWYN GIRL WED

Uniting in marriage Miss Ann Gaze of Berwyn and Richard Waters, son of Mr. and Mrs. Ray Waters, Channel Lake, was a ceremony which took place Saturday afternoon in the Evangelical Lutheran church at Berwyn. The Waters are now on a week's honeymoon.

The bride is the daughter of Mrs. Susan Gaze of Berwyn.

The bridegroom attended Antioch Township High School.

RONALD HARDY JOHNSON HAS 2ND BIRTHDAY

Her son Ronald Hardy Johnson's second birthday anniversary on July 2 was observed by Mrs. Milton Johnson by entertaining a number of friends at her home. Among those present were Mr. and Mrs. Wallace Williams, Mrs. Marie Mann and Mrs. Bertha Frank and son Edwin, all of Edison Park. Also present were several persons from Antioch and Ronald's sister, Sybil.

BRATRUDS OBSERVE 15TH ANNIVERSARY

The fifteenth wedding anniversary of Dr. and Mrs. A. P. Bratrude was the incentive for an evening of bridge and steak supper Monday at their home. Guests included Dr. and Mrs. D. C. Mower, Burlington; Messrs. and Mrs. B. K. Burke, S. B. Nelson and Walter French.

AID TO HOLD BUSINESS MEETING WEDNESDAY

The Women's Aid Society of the Methodist church will hold the regular monthly business meeting Wednesday at 2:00 o'clock at the home of Mrs. A. P. Bratrude.

Mrs. C. W. Laffin of Great Neck, Long Island, N. Y., was calling on friends in Antioch Monday. She was enroute to Pasadena, Calif., where she will be the guest of her son and wife, Mr. and Mrs. George Laffin, for the next few weeks. The elder Laffins were former residents of Channel Lake community where they still own their home, but interests elsewhere have prevented them making use of it for the past several years.

Among the thirty-one conductresses of various Eastern Star chapters who formed an escort for Rebecca Parker, grand conductress of the grand chapter of Illinois, Friday evening at Fellowship chapter in Chicago, were Mrs. O. E. Hachmeister of Antioch, Nina Stewart of Waukegan, and Margaret Elbert, North Chicago. The observance coincided with the date of Mrs. Parker's thirty-second wedding anniversary, and she was presented a bridal bouquet and gifts of silver.

Antioch youths who returned Saturday from attending the "Boys' State" citizenship training course held at Springfield for a week under American Legion auspices include Frank Petty, who was sponsored by the Waukegan Exchange club, and Jack Horan, sponsored by the Antioch Legion post. About 1,500 boys took part in the Springfield "Boys' State" activities. Similar courses were also sponsored in Wisconsin and other states by the Legion.

Mrs. Chase Webb has just returned from a several days' visit with Miss Mary Tiffany at her cottage near Copper Harbor, Mich. During the past few months Mrs. Webb's services have been much in demand as a lecturer on her travels in South America and Mexico the latter part of the winter and in the early spring. Mrs. Webb's son, E. Morley Webb, is in business in Mexico City.

CHRISTIAN SCIENCE CHURCHES

"Christian Science" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 30.

The Golden Text was, "The prophecy came not in old time by the will of man; but holy men of God spake as they were moved by the Holy Ghost" (II Peter 1:21).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "A good tree cannot bring forth evil fruit, neither can a corrupt tree bring forth good fruit. Every tree that bringeth not forth good fruit is hewn down, and cast into the fire. Wherefore by their fruits ye shall know them" (Matthew 7:18-20).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Christian Science awakens the sinner, reclines the infidel, and raises from the couch of pain the helpless invalid. It speaks to the dumb the words of Truth, and they answer with rejoicing. It causes the deaf to hear, the lame to walk, and the blind to see. Who would be the first to disown the Christliness of good works, when our Master says, 'By their fruits ye shall know them?' (p. 342).

CRUMBLING CIVILIZATION IS BROADCAST SUBJECT

"A crumbling Civilization—its causes and cure," was the subject last Monday's Baha'i broadcast over WRJN, the Racine station. This Monday at the same hour, 3 p. m., daylight saving time, this subject will be continued. The program is broadcast by Mrs. A. F. Mathisen of Bristol, Wis.

In closing her talk of last Monday, Mrs. Mathisen quoted from the Baha'i teachings in regard to America's place and great responsibility in the establishment of a divine civilization, adding that "America is you and I."

"The American continent gives signs and evidences of very great advancement; its future is even more promising for its influence and illumination are far reaching and it will eventually lead all nations spiritually. The flag of freedom and the banner of liberty have been unfurled here but the prosperity and advancement, the happiness and greatness of a country, depend upon its heeding and obeying the call of God. Only when material and spiritual civilization are linked and coordinated will happiness be assured."

Mr. and Mrs. Frank Neverkla of Chicago, who have bought the Jack Flanagan home on Highway 59 north of Nielsen's barbecue, and their son, Frank, have been getting settled in their new summer residence during the past two weeks. Although they at present retain an apartment in Chicago, they may later make their year-round home here.

Miss Helen Patten arrived Wednesday from Quincy, Mass., for a month's visit with Mrs. L. D. Congdon. She was accompanied by Mrs. F. L. Mullock and daughter, Esther, of Melrose Highlands, Mass., who left to return to their home after spending a day here.

Farm Floral Contest Has Over 2,000 Entries

Springfield, Ill.—Two thousand Illinois farm-owners and farm-operators are competing for cash prizes and plaques in the 1940 Farm Floral contest, originated by Governor Henry Horner to add beauty to the Illinois roadside scene.

Judging by local committees is in progress in every county in Illinois this week, according to Director Charles P. Casey of the Department of Public Works and Buildings, one of the two State agencies sponsoring the contest. The second sponsor is the Illinois State Fair, where prize-winners will be announced on August 23.

Cash prizes aggregating \$2,500 and 105 bronze plaques will be awarded at the fair to farmers judged to have shown the greatest progress in landscaping and beautifying their grounds, Casey said.

Entries from this county are: Mrs. Elbert Elsbury, Gurnee, State Aid Route, 4 miles west of Gurnee, (Grand Ave.)

R. E. Hook, Gurnee; State Aid Route, 8 miles west of Waukegan, (Grand Ave.)

Mrs. C. S. Lamb, Gurnee; State Aid Route, 3 miles west of Gurnee.

The Japanese are running engines on liquid air. A small unit is said to have pushed a 27-foot boat along at 4.6 knots, for an hour and a half.

'round the Lakes

A man who believes in his principles is Dr. D. N. Deering, who braved a driving rainstorm (according to Miss Clara Haling's "Grass Lake Chatter") to catch a fair-sized bass with one of his "Spotty" frog lures on his second cast off the pier at Haling's resort. Charley Haling is another fisherman who had good luck with the lure, going "Doc" three better by catching four bass with it. Incidentally, the "Grass Lake Chatter" is observing its fourth anniversary this July. . . . and Editor Clara is receiving quite a few congratulations on the success of her widely read little periodical.

A young red fox caught a few days ago is being kept as a pet at Anderson's Saddle Inn, it is reported.

Dominic's State Line Inn is ushering in the Fourth of July eve with the music of Ray Bacon and his orchestra. Proprietor Dominic Giannini is all set to help the Fourth go off with a flash, or a bang, as preferred, with the stock of fireworks he has laid in for his roadside stand.

By popular request, the "Escorts" are playing every evening except Monday at the Norshore Gardens, Lake Catherine. Matinee dancing is featured at the Gardens Sunday afternoons.

In addition to having an orchestra Saturday evening and on Sunday afternoon, Mr. and Mrs. Adolph G. Helm's Channel Inn on Highway 173 will also have dancing Wednesday evening of this week and on Thursday, the Fourth. The Channel Inn is serving roast turkey lunches Saturday evenings.

The dance hall at Pasadena Gardens is made ready for the dancing to be featured there every Saturday evening, according to Silvestra Covelli, who has taken over the management. Genuine Italian spaghetti and ravioli will be served at the Gardens, where the manager plans to specialize in Italian cooking.

Sixty men from the Rosenow Engineering company, Chicago, held a tournament at Chain O' Lakes Country club, Grass Lake road and Highway 59, Saturday. On Sunday, 30 members of the Waukegan Business Men's club were out. No tournaments will be held over the Fourth, Fred Hawkins, manager and professional, announces. . . . Frederick and Charles Hawkins are expected home Sunday from a five weeks' visit with their sister, Mrs. William Overton, in Los Angeles.

Bob Hardman, of Hardman's resort on Bluff Lake, is looking for a name for his new Llewellyn setter pup. "Eagle Eye," "Champ," "Butch" and "Angel Face" are some of the suggestions already received. "The World's Greatest Minstrel" will be an attraction at Hardman's on July 21.

Elmer Barth of Park Ridge, who is a summer resident at Petite lake, is still receiving congratulations on a fine catch of large-mouth bass he made last week. One of the five good-sized fish he caught weighed just under five pounds, it is reported. Another tipped the scales at 4 1/4 pounds.

A group of 20 golfers from Chicago enjoyed a noon dinner at Our Country Club restaurant on Highway 83 following tournament play on the golf course.

Otto Gromol, chef at the Round-up restaurant on Highway 21, who was rescued from Looon lake last week after he had fallen from his boat while fishing, is himself the holder of a medal for rescuing two men from drowning. It happened while he was attending a Moose picnic on the Lake Michigan shore north of Chicago, in 1914. "I managed to get them close enough to shore so one of the men could touch bottom and wade in," Otto relates, "but they nearly pulled all three of us down, struggling, before I could do it."

The Roundup is proving a popular rendezvous for parties these days. Ed Weinert and party of 21 friends from Chicago and Waukegan held a 4 o'clock dinner there Sunday afternoon, and the E. M. Runyards, of the Runyard and Behanna law firm in Waukegan, were host and hostess to a party of 20 friends at a birthday observance last week.

Mr. and Mrs. Harry Strauss and daughter, Carol, of Miami, Fla., arrived Tuesday afternoon to visit Mr. and Mrs. Louis Nielsen of Nielsen's Corners Barbecue, Highway 59 and Grass Lake road, and Mr. and Mrs. Robert Hartley.

Mr. and Mrs. Fred Notte of Ireland's Lone Oak Inn on Highway 59 spent Monday in Chicago. Colleen Ireland has been visiting friends in Chicago from Sunday to Wednesday of this week.

A mimic "moon" with a real "face" helps supply light for the dancers in the terrace garden at the Nineteenth Hole, Highway 59.

'Propaganda Is Inevitable,' Says U. of I. Man

'Though Persistent, It Need Not Be Fatal to Intelligent Decision,' Adds Sociologist.

Propaganda is inevitable with modern civilization and social conditions, concludes Dr. J. W. Albright, University of Illinois sociologist. But he adds that "although it is pervasive and persistent, it need not be fatal to intelligent and popular decisions."

He believes that "intellectuals in America have probably become oversuspicious of their sources of information, whereas the common man is as yet inadequately suspicious. The intellectual's oversuspicion and the undersuspicion of the common man are a dangerous combination," he warns. "In both cases they are overgiven to righteous indignation. And righteous indignation is a pushover for the propagandist."

Professor Albright recently published a widely noticed book on "Propaganda and Public Opinion." He defines propaganda as "any special pleading from a concealed source."

He points out that propagandists "persistently appeal to the emotions of their subjects. Argument and discussion openly carried on is one thing; veiled propaganda appealing to hate, fear, pride, selfishness, greed, and the like is quite a different process, short-circuiting discussions of the issue."

"Almost inevitably, the propagandist becomes a liar. He not only distorts, he also fabricates. He is usually driven by the logic of events to more and more extreme falsehoods."

"Such falsification is most effective if it cannot be contradicted because the means of communication are controlled. This is obviously true of much national propaganda in wartime. When war is declared, truth is the first casualty."

"Just as individuals in face-to-face conversation exaggerate the stories, rumors, and information they transmit so that they may gain effectiveness, the propagandist exaggerates in the interest of his cause."

"The propagandist further distorts by selection. He is not concerned with providing impartial data. He has a cause to plead. His problem consists principally in selecting such information and such social suggestions as are best calculated to evoke the desired responses."

University of Illinois Gets New Librarian

Dr. Carl M. White, who has been librarian and chairman of the division of the library and library school at the University of North Carolina, will come to the University of Illinois this fall to be director of its library and library school.

He succeeds Director Phineas L. Windsor, who is retiring. Director Windsor has had charge of library activities at Illinois since 1909. Under him the University of Illinois library has become the largest of any state university and fifth largest of all universities in America.

HEALTH HINTS FOR LIVESTOCK

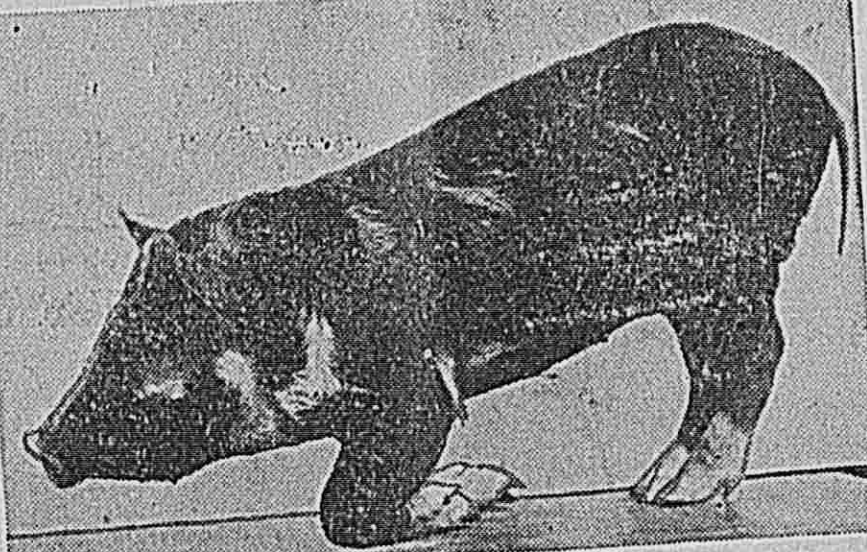

TWO SWINE PLAGUES THAT ACT ALIKE

Though due to entirely different causes, two of the most disastrous swine diseases, hog cholera and swine erysipelas, are so very similar that even trained veterinarians often find it necessary to resort to laboratory diagnosis to determine which disease is affecting a herd.

Both of these plagues of swine may strike suddenly. Both cause a high fever, general weakness and depression. The filtrable virus of hog cholera and the tiny rod-shaped erysipelas germ both raid the tissues through the blood

of the affected animals. Those which survive the disease may show big joints, stiffness, sloughing off of sizable pieces of hide, and emaciation due to growths on the valves of the heart.

As erysipelas is steadily becoming more prevalent—it has now been identified in more than 27 states—the possible loss resulting from confusion of this disease with dreaded hog cholera is a very real menace. All livestock authorities agree that one of the most sensible precautions is to have the most veterinarian immunize all pigs against hog cholera at or near weaning time. This cholera at or near weaning time is a largely eliminates hog cholera as a factor in its "running mate"—erysipelas—happens to strike the herd later.

Typical erysipelas case. Note enlarged joints and sore feet.

stream and leave the tiny, dot-like blood spots or pinpoint hemorrhages called petechiae. The eyes may be "gummed" shut, and the skin discolored in the case of either disease.

But there is one characteristic fact about hog cholera that is true of almost no other hog disease—almost 100% of all hogs sick with cholera die. And there is no known cure for a hog in advanced stages of cholera. On the other hand, the death rate in erysipelas ranges from 20% to 40% of

One should remember that the swine erysipelas germ also infects human beings through abrasions on the skin. Every one should use rubber gloves or cheap cotton gloves that can be burned or destroyed while handling carcasses of swine dead from erysipelas. Luckily, a very potent and curative serum is available for combating swine erysipelas outbreaks, and if it is used after early identification of the disease by a trained veterinarian, heavy losses may be avoided.

Youth vs. Age War Forecast For America

A coming class conflict in America—not between capital and labor, but between youth and age—is forecast by Prof. Frank G. Dickinson, University of Illinois economist.

"As a result of the decreasing birth rate and increasing life span, by 1980 one of every six persons in America will be 65 or over, instead of as now one of each 16 persons," he asserts.

"During the next 40 years we must adjust our social, economic, and political life to an aging population. By 1980, individuals over 65 will have increased from the present eight and one-half millions to twenty-three or twenty-five millions; not one to every nine breadwinners as now, but one to every three and one-half."

"It will be the greatest cultural and social change since the fall of Rome," the Illinois economist says. "One of every four voters will be over 65. Pension taxes may take one-fourth of the income of workers and employers."

"It will be a class war led by the 'pensionaires,'" says Professor Dickinson. "Dr. F. E. Townsend's ideas will be as important to the changes of the next half century as Karl Marx's were to the last. The class war between old and young will replace the struggle between labor and capital."

"With the increase of the aged, democracy may degenerate into 'votocracy.' Both present parties may be smashed by the 'pensionaires.'"

"The party in power will pay the smallest possible pensions. The party out of power will promise the sky. It will be a struggle between generations. The hand that rocks the rocking chair will rule the nation."

Nichols at Illinois Says Glorify America By Advertising Art

"Advertising pictures are the average American's art gallery; they should glorify the American scene and way of living," according to Dale Nichols, first Carnegie professor of art and resident painter at the University of Illinois.

"If art does not serve some useful purpose, it is worthless," says Nichols. "Nothing should be too humble for the artist to decorate. Articles should be functional, yes, but they also should, and can, be beautiful."

A critic once said of a Nichols painting which won a Chicago Art institute prize that "it looks like a candy box cover." Nichols retorted, "I consider the candy box a very useful article."

"Extending good art to the everyday American, through advertising and other mediums, will launch the world in a new experience," the artist asserts. He believes that American art should be fused with the life of the people as was that of the golden ages of Greece and Italy.

"And we should glorify the American way of living," Nichols declares. "Leave Europe alone. We have our own subjects—skyscrapers and barns, mountains and deserts, overalls and Indians, and thousands of other things."

Many Kinds of Glass Says U. of I. Ceramist

One-way glass, which lets you look out but lets no one look in, is about the only kind of glass still undeveloped, according to Dr. A. I. Andrews, University of Illinois ceramist. "We have 'invisible' glass, non-glare glass, polarizing glass, and glass which transmits light but is opaque to X-rays," he says.

"One-way vision glass has not yet been made, but with certain glasses it is possible to see from a darker to a lighter side, and not from the light to the darker side."

The ceramic industry, Dr. Andrews states, "has realized dreams of the past by producing glass cloth, shatter-proof glass, 'invisible' glass, and glass of many colors."

"In architecture, glass has gone even further. Glass brick with its illumination heat insulation, and beauty has met approval in many forms of construction."

"Shatter-proof glass," he said, "has given us greater safety in automobiles, trains, busses, and street cars."

Not only in the teaching of ceramics, but in its scientific investigations has the University of Illinois long been an important contributor

to the growth of the glass and clay product industries.

Graduates of the University of Illinois School of Journalism engage in more than 24 specialized forms of work in which they use their professional knowledge and skill, reports from alumni show. First place in the employment survey is held by daily newspaper reporting, second by community and country weekly newspaper work, and third place by newspaper advertising and circulation work.

Lloyd Haberly, a poet now a guest at Harvard university, uses a 150-year-old hand printing press at the Widener library to turn out his annual volume of lyric poetry.

Virginia Relief Funds
In Virginia, state relief funds are granted to counties on a population basis, but county officials must match every state dollar with 60 cents of county funds.

Increased Life Span
Since the turn of the century the average life span of the white boy baby has increased 12 1/2 years.

Persia's Woolen Carpets

'Dark Horse' Willkie Named G.O.P. Presidential Candidate; McNary for Vice President

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
Released by Western Newspaper Union.

"All Gaul is divided into three parts," said Caesar, and now modern France, covering most of ancient Gaul, is again divided into three parts. The two most important segments will be occupied by the Axis powers, Germany and Italy. Germany received the black area in the above map according to armistice terms which ended the fighting. Italy now controls the dotted area on the map. The white area remains under French control.

POLITICS: G.O.P. 'Oomph'

From the opening session of the Republican national convention in Philadelphia, there was little doubt as to what presidential nominee aspirant was the "gallery's choice."

For each time the name of Wendell Willkie was mentioned on the convention floor a sally of cheers swept down from the onlookers.

The New York lawyer and utilities executive in a decidedly brief (two months) period of time had risen from the political unknown to the pinnacle of popular G. O. P. favor.

Entering the convention balloting with a mere handful of pledged delegates, Willkie's dynamic super-salesmanship started its telling effect in the form of a definite trend toward him as the second roll call of states was called. On the first ballot he had 105 delegate votes cast in his favor and ranked third while Thomas E. Dewey held first place with 360 votes and Robert A. Taft of Ohio was second with 189.

On successive ballots Willkie then gained 65, 86, 47, 123, and finally on the sixth roll call he went over the top with a net gain of 204 votes, giving him a total of 633—501 being necessary for the nomination. Willkie having won, all state delegations then made the nomination unanimous.

Next day, on the first balloting for the vice presidential nominee, Senator Charles L. McNary of Oregon was elected as the party's overwhelming choice for Mr. Willkie's running mate.

Tagged as a "peace, preparedness and prosperity" platform, the G. O. P. 1940 statement of party policy straddled most important national issues but packed plenty of anti-New Deal and anti-Third term punch.

Unanimously approved, the platform contained a keep-out-of-war declaration; a plan of Republican-inspired national defense; a slap at President Roosevelt's "provocative" speeches; and a demand to limit presidential service to two terms.

Willkie's political rise stands out as one of the most dramatic in American history. Coupled with the fact that he started his campaign a short time ago, is the fact that up until the last few years he has been a Democrat. Many political experts thought this would spell political doom in a Republican convention. But it didn't.

Secretary of State Cordell Hull announced that he had ordered Anthony J. Drexel Biddle, U. S. ambassador to Poland, to follow the exiled Polish government from its temporary capital at Bordeaux, France, to London, England.

Earl Browder, general secretary of the Communist party in the United States, lost another court battle when the Circuit Court of Appeals in New York upheld his conviction of wilfully using a passport obtained by false statements.

Chairman of the now very important senate foreign relations committee, Key Pittman (D., Nev.) expressed hope that British plans "to fight from the New World" (Canada) with its navy would not be delayed "too long." London cracked back that no such move was being considered currently.

'Socks' That Count

It's better to drop bombs on an invader than to knit socks for young soldiers in the opinion of Mrs. Lorene Holloway, able Jackson Heights, N. Y., air pilot. If war strikes this country, she wants to join U. S. defense forces and organize young women fliers into a fighting corps.

AVIATION:

Spreading Wings

Three new air routes mark current developments in America's ever-expanding aviation industry.

Hailed by Alaska's governor, Ernest Gruening, as a stride toward national defense, the 20-ton Alaska Clipper began regular pay-passenger service between Seattle and the territory. On the first flight the Clipper made a trip that usually takes four days by boat in slightly over five hours. Twenty passengers were aboard.

This initial flight called attention to Alaska's air defenses which are in the process of being strengthened by the U. S. navy. Two new flying bases at Sitka and Kodiak are under construction at the present time and the naval expansion program calls for further bolstering of Uncle Sam's air arm in the area.

Pan American Airways is starting transoceanic service over 8,000 miles of the South Pacific to New Zealand and a new flight schedule with daily plane service to Argentina is slated to get under way July 12. On the New Zealand route, four and a half day service will be provided between Los Angeles and Auckland, New Zealand.

INDUSTRY:

Change of Pace

Current reports of Federal Reserve banks plus other commercial indices reveal that a downward trend of industrial activity which has marked U. S. business since last December has now been reversed. Expanding production is noted in many key industries.

With much of such increasing activity centered directly or indirectly in war and defense materials, non-military industries are also registering important gains.

Steel production is now booming along at capacity speeds and new orders from foreign and domestic buyers which are currently pouring in should keep blast furnaces roaring for many months to come.

Automobile tire shipments have shown large increases and leading rubber companies say these more than offset a seasonal decline in sales to car manufacturers. Southern Pacific railroad is negotiating for the purchase of some 2,500 new freight cars.

LEAGUE OF NATIONS:

Business Report

Eighty-nine employees of the league of nations—the last 89 to be exact—were given notice to resign for business appeared to be at a standstill. Secretary General Joseph Avenol started closing up shop about May 16 when Germany launched its blitzkrieg against the low countries. It was then he gave 205 league officials and employees a chance to resign or have their contracts suspended upon any notice.

Two decades ago the league was created to aid in the settlement of international disputes, but business was dull until two years ago, when aggressors started to work in earnest and things began to hum in the great marble building that housed the delegations.

But this activity began to slow down as one by one, Austria, Poland, Czechoslovakia, Albania, Finland, Denmark, Norway, The Netherlands, Belgium and then France wilted under the pressure of more powerful nations.

Starting out as a noble bid for peace and world understanding, an idealistic institution is closing its books in a world where force holds the balance in the ledger.

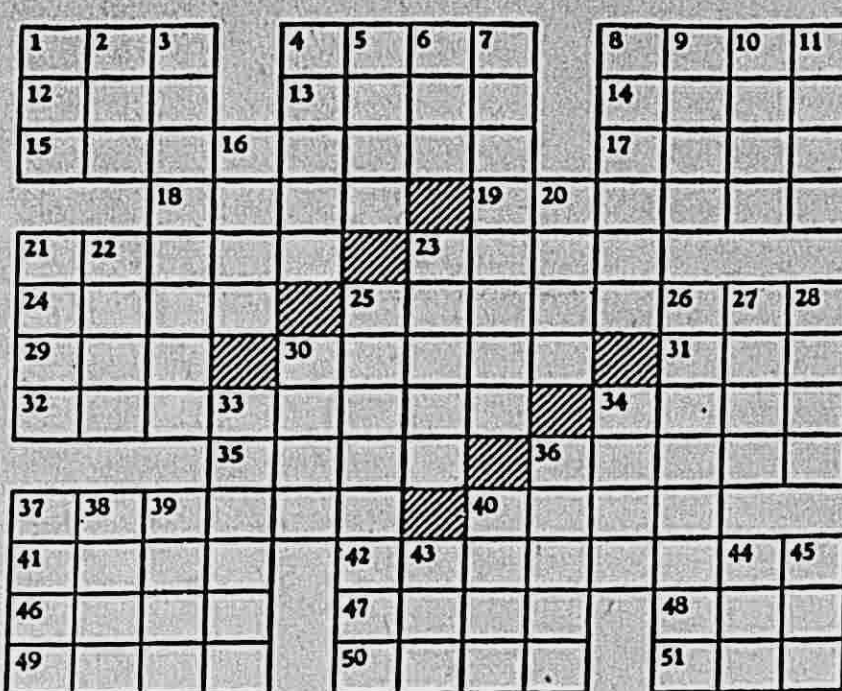

MISCELLANY:

Fortune magazine announced results of a nationwide poll it had conducted which revealed that 49 per cent of the voters believed they would support President Roosevelt for a third term. The survey was taken after the war reached its critical stage, magazine officials pointed out.

Justice department officials are preparing for registration and fingerprinting of some 3½ million aliens in this country as a result of legislation passed by congress.

When near the picnic grounds it began to dawn upon the members of the Lake Villa camp that our big, good-looking ex-adviser and business manager was the only member of any outside camp in the procession, and an audible smile passed down the line as the boys realized that unless reinforcements came to the rescue Hughes would carry off the honors—which he did.

SELECTION of people for jobs is in itself a job. Human nature being what it is, and being variable in both the interviewer and the person interviewed, it is no wonder that there are almost as many methods of selecting employees as there are employers. While it is possible to determine physical capacity, it is not so easy to penetrate within the individual and to learn what he has that will enable him to fill a particular position satisfactorily.

Many firms use questionnaires and tests of various kinds in the selection of employees. These tests and questionnaires are not devised to find fault with a person's knowledge, but rather to disclose how well he is prepared for a certain kind of work. The individual is the supreme consideration. Ten men with a similar educational and social background may apply for the same kind of position. If all are hired, it will be found that a few will not be suited to the work and that one or more will definitely turn out to be square pegs in round holes.

The matter of selecting employees, however, is not as important as the training of them. Many businesses frankly state that new employees need not be experienced in any particular line of work. These concerns prefer to train new workers themselves, provided the employees have certain desirable qualifications with which to begin. While it is true that many firms conduct group training plans, such plans only provide a limited amount of instruction. Extensive training is today as in the past the individual's own problem.

IMPROVED UNIFORM INTERNATIONAL SUNDAY School Lesson

JOB TEMPTED TO DOUBT GOD'S GOODNESS

LESSON TEXT—Job 2:1-13.
GOLDEN TEXT—In all this Job sinned not, nor charged God foolishly.—Job 1:22.

Poetry has in all ages been the language of the soul. Feelings beyond the reach of the choicest prose seem to pour forth unhindered through the poetic channel. That is one reason why Christian people find such a response in their own souls as they read the magnificent poetry of the Bible. For the next three months we are to be privileged to carry on a study of the poets of the Bible. None of us should miss a single lesson.

The book of Job deals with and solves the fundamental problem, "What is the meaning of the suffering of the righteous?" Our first lesson presents Satan as the great adversary and accuser of man, and reveals that man may successfully resist him by faith in God.

I. Satanic Accusation (vv. 1-5).

The lesson opens with a scene in heaven, where the angelic beings present themselves to give an account of their activities. Satan, too, is there as the adversary and accuser of men's souls. He had already, by God's permission and as a test of Job's faith, destroyed all of Job's property and taken from him his family (see Job 1:14-19), but he had not destroyed Job's trust in God (1:21).

Now Satan had a new charge; namely, that Job could bear the loss of his children and his riches, but if God would permit his own body to be afflicted, he would deny God. It is the familiar refuge of those who would lie about the servants of God to say, "He is in it for what he gets out of it." Those who use that lie do well to recognize the originator of their calumny; they are working with Satan when they thus hinder the Lord's work.

II. Spiritual Integrity (vv. 6-10).

The trial of Job was most severe, for only his life was spared. His affliction was evidently not only that of boils on his skin (which would have been bad enough), but a systemic condition which made his whole body sick and made him so repulsive as to be unfit to live with other people (see Job 7:1-5, 14, 15; 16:8; 19:17-20).

Not only did he suffer physically within an inch of his life, but he was subjected to the mental and spiritual torture of having the one who should have stood by him—his wife—urge him to renounce his faith in God and die. Many who have borne excruciating physical pain have broken down under spiritual cruelty, but Job still maintained his integrity.

Why God permitted him to suffer he did not yet understand, but he knew God and he was willing to take from His hand evil as well as good (v. 10) as long as His heavenly Father was in control. What a testimony!

III. Sympathetic Friendship (vv. 11-13).

His wife and neighbors had abandoned Job, and even the children of the street despised him (19:18), but he did have three friends. Thank God for friendship—not the fair weather kind, but the type that stands by in the hour of trouble. These friends apparently came from a distance (vv. 11, 12) and at some sacrifice of time, effort and money. Friendship that doesn't cost anything usually doesn't amount to anything.

Note the intelligent and sympathetic manner in which they shared his sorrow. They were themselves sorrowful (v. 12) and they sat with him, not saying a word. In the hour of deepest need words are futile and often only add to the sorrow, but how much it means in such an hour to have someone who will silently, and yet sympathetically, stand by. One could wish that his friends had continued as they began and not later have spoiled their comfort by many important sounding but foolish words which the Lord had to condemn in the serious words found in Job 42:7, 8.

We shall see the answer to the question regarding suffering in our lesson for July 21 as being that man might be brought to really know God and to see himself in the light of God's holiness. Thus, by victory through testing, man proves to himself and to his fellow men that God is worthy of our fullest confidence, that faith in Him will bring us through the deepest darkness and the severest trial.

Roots of Evil

To abolish evil its roots must be dug up and exposed in the sunlight, where they will wither and perish. These roots thrive underground and are cancerous.

No More Vanity

Ye shall see no more vanity, nor divine divinations; for I will deliver my people out of your hand; and ye shall know that I am the Lord.—Ezekiel 13:23.

"The abundance of peace and truth"

PEACE is not a surface condition. Whether considered in relation to the individual or to society, peace is deep-founded, fundamental. It is not negative; it does not result from indifference. In fact, peace can be found only in clear thinking, humbly maintaining an ideal even in the face of odds; it is not found in merely drifting with the tide of contemporary beliefs. The characteristic of peace is co-operation. Thus is national as well as individual character developed.

True character is expressive of spiritual verities. It furnishes evidence that real existence is not, as unenlightened materialism pretends, the sport of forces divided between good and evil. Spiritual truth proclaims that the achieving, conquering, sustaining laws of being are entirely spiritual, that man is spiritual, and that real existence is governed by divine law.

Christian scientific thinking proves man's divinely bestowed dominion. This is the opposite of personal domination, for domination comes from that faith in matter which breeds fear and selfishness. Dominion, on the other hand, is found in knowing God's infinitude. . . . It would not be convincing to pray that God's will be "done in earth, as it is in heaven," unless it were understood that God's bountiful provision for His idea, man in His likeness, is humanly available in terms of health, goodness, joy, and opportunity. Jesus' great healing work, done in accord with the divine will, clearly proved that the Christly understanding of spiritual being can dispel the effects of disturbing fears and theories.

Amid world-wide turmoil, or when pressed by difficulties of a more personal nature, we often find it hard to behold God's supremacy and man's likeness to Him. Then, however, we can learn that the five physical senses see nothing accurately, and prove that the safe way involves a denial of frightening sense impressions and a sure use of hope and faith, based upon an understanding of God as Love, divine Principle. Jesus rebuked some because they could "discern the face of the sky," but could not "discern the signs of the times" (Matthew 16:3). When customary reliance fails, the "signs of the times" indicate our need to know God aright and to prove our relationship to Him more humbly and consistently.

The shortcomings of ourselves or others should not discourage us, but rather should rouse us to rely upon the truth stated by Mary Baker Eddy where she writes (Science and Health with Key to the Scriptures, p. 6), "Divine Love corrects and governs man." If we doubt this and are troubled by the apparent activity of evil, we need to gain a more vivid understanding of divine Love, for the divine is ever unconfined, universal, all-embracing. Knowing this, we protect ourselves from the temptation to become dictatorial or to assume a false sense of responsibility.

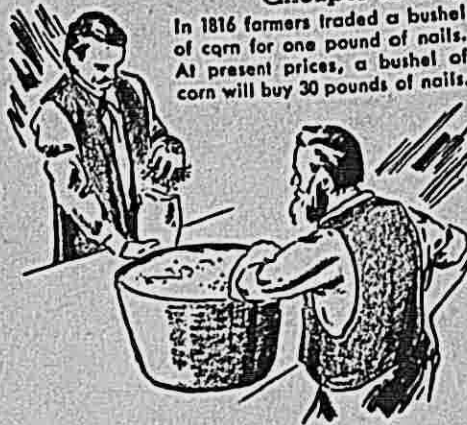

It is spiritual peace that we all need, and as we find this by realizing that man is God's inseparable image and likeness, we learn to dwell harmoniously with others. Mrs. Eddy writes (The First Church of Christ, "Scientist, and Miscellany, p. 277), "The characters and lives of men determine the peace, prosperity, and life of nations." Character based on spiritual strength includes humility and generosity, readiness to praise and reluctance to condemn, patience and hope. True character minds its own business, and finds in expressing spiritual ideas a satisfying activity, rich in promise for society and in reward for the individual.

Belief in materiality incites men to greed, hatred, fear, and other promoters of discord. This false impulse is the seeming opposite of the inspiration of Spirit, God, who endows creation with the love and intelligence which perpetuate harmony. Speaking to the houses of Israel, in captivity, Jeremiah voiced God's promise as universally available (33:6): "Behold, I will bring it health and cure, and I will cure them, and will reveal unto them the abundance of peace and truth."—The Christian Science Monitor.

Aces Drop Game To St. Patrick's

Drop First Loss of Season Here Sunday, 5 to 4

League Standing June 23

	Won	Lost
Antioch	6	0
Pikeville	4	2
Somers A. C.	4	2
New Munster	2	2
Brighton	2	3

Bristol	1	5
Triangle Club	1	5

The six-game winning streak of the Antioch Aces was broken Sunday on the home grounds when the locals were nosed out 5 to 4 by St. Patrick's team of Wadsworth.

Ray Wells pitched a fine game, allowing only six hits, but several costly errors in the infield cost him the victory. Schneider and Effinger were absent, which caused the playing of several men out of position.

Antioch goes to Lake Geneva tomorrow for a Fourth of July game, and Sunday they will resume the league schedule, playing at Brighton.

AMUSEMENTS

Ray Noble at The Palmer House

When Ray Noble and his orchestra make their Chicago debut in the Empire Room of the Palmer House on Thursday, July 4, they will be co-starred with the new "Merriel Abbott Dude Ranch Revue." Noble, who has played for the Gracie Allen-George Burns radio program during the past three years, is equally as well known as a song writer as he is as a band leader. Some of the compositions upon which Mr. Noble has been col-

lecting royalties include: "Goodnight Sweetheart," "Love Is the Sweetest Thing," "The Very Thought of You," "By the Fireside" and "Cherokee." Ray Noble and his sixteen musicians have never played anywhere in Chicago prior to their opening in the Palmer House.

For her "Dude Ranch Revue" Miss Merriel Abbott has assembled one of the finest floor shows yet to be seen in the Empire Room. Some of the acts already engaged include: Ygor and Grace Poggi, ballroom dancers also new to Chicago; Tenner and Swift, western rope manipulators; the Four Texas Ramblers, singers; Dick Barstow, dancer; Miss Valerie Thon, a former Abbott girl who returns to the Empire Room after two years absence as a solo act receiving her first billing as an individual attraction; and the twelve Merriel Abbott International dancers.

Miss Thon will be remembered by many as "Dolly" Thon. She has been in Hollywood for the past twenty months and while there her name was linked in romance by movie columnists and commentators with that of Mickey Rooney.

Starfish Population
The United States bureau of fisheries reports an enormous increase in the starfish population off the coast of Long Island.

The Observer

Once in a while there is an item in the news that for sheer pathos makes an indelible impression. We leave you to judge this little story for yourself: Sioux Falls, S. D.—Hans, an innocent, long-haired dachshund, took the brunt of anti-Nazi sentiment in Sioux Falls.

First kicked around by small boys, he later was covered from head to foot with cream-colored paint.

Instinct brought him home, but even if he lives those sorrowful brown eyes may forever remain sightless, a veterinarian said.

Seen along the Main stem: Harry Radtke's tinsorial emporium getting a new coat of white paint in front last Thursday.

An interested audience watching about six husky guys disentangling a couple of auto bumpers, by lifting up one car bodily and moving it over... last Thurs. noon.

Quite a few slacks and shorts worn by some of the wimmin looking a bit overstuffed. Ladies, ladies why doncha buy 'em a size larger? 'Twould make you look tons smaller. For that matter, some of the gents ought to be told about ry-krisp, too. Or else reduce the Welch way.

Things we wish we could have seen back in the good old days—

Lillian Russell riding a bicycle.

Little Mary Pickford getting her curls shampooed.

Ben Franklin gathering the data on a live news story.

The Wright brothers making their first airplane flight.

Antioch's Main street lit up by kerosene lights.

A little while back when those "Confucius" sayings were being spread around, Mrs. A. F. Matthisen of Bristol brought us in a little clipping with some authentic sayings. Here are a few of them:

The Master said—
The commander-in-chief of an army may be held captive, but the convictions even of the meanest man cannot be taken from him.

Some one asked Confucius, saying, Master, what think you concerning the principle that good should be returned for evil? The Master replied, What then will you return for good? No! Return Good for good; for evil, justice.

When his stable burnt down, Confucius left the Court and said, "Has any man been hurt?" He did not ask about the horses.

A feudal noble said to Confucius, "The villagers of my State are upright men. If a father steals a sheep his son will give evidence against him." Confucius replied, "The uprightness of the villagers in my State is different from that. A father will shield his son, and a son will shield his father. This is what I call uprightness."
